APPENDIX B

DESCRIPTION OF THE ORIGINAL MAINLAND AND SOUTH PROJECT CUSTOMERS AND CERTAIN FINANCIAL INFORMATION REGARDING THE SOUTH PROJECT CUSTOMERS

THE ORIGINAL MAINLAND PROJECT CUSTOMERS

Mainland Project Customers who are currently purchasing potable water from the Authority's Water Plant fall into two categories: seven municipal customers and one private corporation. The municipal customers include Bacliff, Bayview, Dickinson, La Marque, Texas City, Hitchcock, Kemah and San Leon. These original customers who purchase water for distribution through their municipal water system, range in customer count from 510 (Bayview) to 13,044 (Texas City). The private corporation, HL&P, purchases water from the Water Plant to provide treated surface water to its P.H. Robinson Plant in Galveston County. A brief description of each Customer currently receiving water from the Mainland Project is as follows:

City of Texas City: The City of Texas City is a port and industrial center located on the mainland opposite the City of Galveston. The 1990 population was 40,822. Two of the major industries in the City are Amoco Texas Refinery and Union Carbide Corporation, both employing over 1,000 persons each. Two other petroleum product manufacturers employ over 500 people each. Oil refineries, oil properties and chemical plants account for over seventy percent of Texas City's assessed valuation.

Bacliff Municipal Utility District: Bacliff Municipal Utility District, created in 1951, provides water and sewer facilities for a 1,195-acre residential area located north of Texas City, where many of the District's residents are employed. Included in the District is the unincorporated community of Bacliff, located on State Highway 646.

Bayview Municipal Utility District: Bayview Municipal Utility District is a municipal water district created in 1963 to provide water and sewer services to a 610-acre residential area located adjacent to Galveston Bay in northern Galveston County about 15 miles north of Texas City. District residents are employed throughout this highly industrialized area.

Galveston County Water Control and Improvement District No. 1 (Dickinson): The District was created in 1939 to provide water and sewer service to an unincorporated residential and commercial community located in Galveston County on Interstate Highway 45 some 30 miles southeast of Houston. In 1978, a part of the area within the District incorporated as the "Village of Dickinson" which provides general governmental services to the incorporated area. It became a home rule city in 1987. District officials estimate that about one third of the local work force is employed in the industrial complex in the Texas City area. A significant number of District residents are employed in the City of Houston and a smaller number finds employment at the National Aeronautical Space Administration's Johnson Space Center ("NASA") which is located some ten miles from Dickinson. Dickinson is a residential/retail/service center.

Houston Lighting and Power Company: HL&P, a Texas corporation, is a subsidiary of Houston Industries Incorporated, which owns all of the outstanding common stock of HL&P. Houston Industries is a publicly held corporation listed on the New York Stock Exchange. HL&P provides electric service to a service area of approximately 5,000 square miles in the Houston Gulf Coast area which has an estimated population in excess of three million persons.

Galveston County Water Control and Improvement District No. 12 (Kemah): The District was created in 1952, to provide water and sewer service to an unincorporated residential and commercial community located in the northeastern portion of Galveston County south of Clear Creek on Highway 146 some 20 miles north of Texas City. In 1962, a portion of the District incorporated to form Clear Lake Shores. In 1967, another portion of the District incorporated to form the City of Kemah, a residential, commercial and recreational community. The local work force is employed in the industrial complex in Texas City and Baytown, the NASA area and the City of Houston. The Kemah waterfront along Galveston Bay is a tourist/restaurant/sailing/boating location.

San Leon Municipal Utility District: The District was created in 1976 to provide water and sewer service to the unincorporated community of San Leon located in the east central portion of Galveston County bounded by Dickinson Bayou and Galveston Bay, east of Highway 146 about 10 miles north of Texas City. It is mainly a residential area with some commercial and recreational facilities. The local work force is employed in the industrial complex of Texas City and Baytown, NASA and the City of Houston.

City of La Marque: The City of La Marque is a residential community located on State Highway 3 just west of Texas City. The principal manufacturer produces electronic control systems employing over 100 persons. Many residents of the City are employed in the nearby Texas City industrial area, which incorporates primarily petroleum refineries and chemical plants. Lone Star State Factory Stores opened in July 1990 and is expanding. A Greyhound race track opened in November 1992.

City of League City: The City of League City is located in the north central part of Galveston County and part of Harris County five miles south of the city limits of Houston, Texas. The City was incorporated on December 9, 1961 and adopted its Home Rule Charter on March 27, 1962. The City provides basic municipal services to its citizens including fire and police protection, ambulance service, water, sanitary sewer and garbage services, library, parks and recreational facilities. The City is located approximately 14 to 20 miles from the industrial and petrochemical complexes located in Harris County along the Houston Ship Channel and approximately 10 miles from the petrochemical refineries located in Texas City in Galveston County. The National Aeronautics and Space Administration's ("NASA") Johnson Space Center is located just north of the City in Harris County. In addition, residents find employment in the numerous retail and service establishments located in the City and surrounding area. The City's estimated population was 83,560 in the year 2010.

Source: Texas Municipal Advisory Council.

THE SOUTH PROJECT CUSTOMERS

The following political subdivisions have executed South Project Customer contracts:

City of Galveston: The City of Galveston is the county seat located on Interstate Highway 45, occupying 32 mile long Galveston Island situated two miles off the Gulf Coast and Pelican Island. The City is an industrial, recreational and shipping center. The City is one of Texas' most historic and is a popular tourist and convention center. Major tourist attractions include "the Elissa," a restored 1877 iron barque, the Strand District, Sea Wolf Park, a rail trolley line, year round sport fishing and miles of beautiful beaches. The University of Texas Medical Branch, Texas A&M University at Galveston, and College of the Mainland are located within the City, and had a combined 2005 enrollment of approximately 9,100. The City of Galveston's estimated population was 56,148 in the year 2009.

City of Hitchcock: The City of Hitchcock is located on State Highway 6, south of I-45, 20 miles north of Galveston. Many of the City's residents are employed in the nearby Texas City industrial area which includes petroleum refineries and chemical plants. The City of Hitchcock's estimated population was 7,153 in the year 2009.

Galveston County WC&ID No. 8: Galveston County Water Control & Improvement District No. 8 was created in 1945 and provides water and sewer facilities for the City of Santa Fe, a retail center and residential area located approximately 12 miles west of the City of Texas City and approximately 19 miles northwest of the City of Galveston. The District lies wholly within the city limits of the City of Santa Fe, Texas, and is bisected from southeast to northwest by State Highway 6. Local manufacturers produce oilfield tools, boat trailers, concrete products and galvanized metal.

Galveston County Municipal Utility District No. 12: Galveston County Municipal Utility District No. 12 was created on September 1, 1981 to provide water and sewer facilities for a 290-acre area located near the intersection of IH 45 and SH 6 approximately three miles north of Galveston and approximately 47 miles from the central business district of Houston. The District serves the Village of Bayou Vista, a primary and secondary home residential development which is over twenty years old. The District is fully developed. The District recently annexed the nearby subdivision of Omega Bay that was serviced by the Omega Bay Water Supply Corporation, a semi-public water district.

City of La Marque: The City of La Marque is a residential community located on State Highway 3 just west of Texas City. Many residents of the City are employed in the nearby Texas City industrial area, which incorporates primarily petroleum refineries and chemical plants. Lone Star State Factory Stores, a factory outlet mall, opened in July 1990. A Greyhound race track opened in November 1992. The City of La Marque's estimated population was 14,194 in the year 2009.

Galveston County Fresh Water Supply District No. 6: Galveston County Fresh Water Supply District No. 6 was created in 1979 and is located in Galveston County on the west side of Interstate Highway 45 approximately 45 miles south of the central business district of Houston and eight miles north of the central business district of Galveston near the northern foot of the dual span causeway that links the mainland and Galveston Island. The District contains approximately 420 acres of land and 1,441 acres of surrounding water. The developed portion of the District lies within the corporate limits of the Village of Tiki Island, a general law city, and the remaining portions of the District lie within the extraterritorial jurisdictions of the City of Hitchcock, the City of Galveston and the City of Texas City. Approximately 60% of the homeowners are permanent residents. As of July 29, 2010, the District contained approximately 872 occupied homes, 25 occupied town homes, 30 occupied condominiums, 5 builder connections, 7 vacant connections and 379 platted but undeveloped lots. In addition, there is a church, a 12,000 square foot office building, a convenience store and a service station.

City of Texas City: The City of Texas City is a Gulf of Mexico port and industrial center located on the mainland opposite the City of Galveston. Two petroleum product manufacturers employ over 500 people each. Oil refineries, oil properties and chemical plants account for over seventy percent of Texas City's assessed valuation. Texas City has the third largest port in Texas in total tonnage, ranking behind Houston and Corpus Christi, and 11th largest in the nation. The City of Texas City's estimated population was 43,965 in the year 2009.

City of League City: The City of League City is located in the north central part of Galveston County and part of Harris County five miles south of the city limits of Houston, Texas. The City was incorporated on December 9, 1961 and adopted its Home Rule Charter on March 27, 1962. The City provides basic municipal services to its citizens including fire and police protection, ambulance service, water, sanitary sewer and garbage services, library, parks and recreational facilities. The City is located approximately 14 to 20 miles from the industrial and petrochemical complexes located in Harris County along the Houston Ship Channel and approximately 10 miles from the petrochemical refineries located in Texas City in Galveston County. The National Aeronautics and Space Administration's ("NASA") Johnson Space Center is located just north of the City in Harris County. In addition, residents find employment in the numerous retail and service establishments located in the City and surrounding area. The City's estimated population of League City was 71,722 in the year 2009.

PAYMENTS TO THE AUTHORITY BY SOUTH PROJECT CUSTOMERS

Payments due to the Authority from each South Project Customer constitute operating expenses of each such South Project Customer's system and each such South Project Customer is obligated to establish and charge such rates for service from its own water supply system (or water supply system as a portion of its combined system) as will enable it to pay all operating expenses of its system and all charges due to the Authority under its South Project Customer Contract.
